CAREER OBJECTIVE

Entry-level Software Engineer with hands-on experience in full-stack web development and AI-integrated platforms. Built and shipped production features using React, Angular, Node.js, and Python across startup and enterprise environments. Experienced in API integration, cloud deployment, and ML-powered user workflows. Actively seeking SDE-1 / Associate Software Engineer roles.

EDUCATION

PPG Institute of Technology   **CGPA: 7.7**
Bachelor of Engineering in Computer Science and Engineering   *September 2021 - June 2025*
Shri Raman Chettiar Matriculation Higher secondary school   **Percentage: 78.2**
 Higher Secondary Certificate   *June 2020 – Apr 2021*

TECHNICAL SKILLS

- **Languages:** Python, Javascript.
- **Frontend:** React.js, Angular, HTML, Tailwind CSS
- **Backend:** Node.js, Express.js, Hapi.js.
- **Databases:** MongoDB, Postgresql
- **AI/ML:** Transformers, Hugging Face, Tokenization, Deep Learning
- **Tools DevOps:** Git, Docker,Postman, ThunderClient, Vercel

WORK EXPERIENCE

Full Stack + AI Intern - Saarc Masts Technology   **August 2025 - October 2025**
- Collaborated with teams to build the frontend of an AI-driven recruitment platform, contributing to UI development and integrating intelligent career assistance features.

Full stack Developer Intern - Travelfika   **February 2024 - Apr 2024**
- Collaborated with team members to build a responsive travel booking platform, developing dynamic interfaces, integrating APIs with Axios, and optimizing performance using server-side rendering.

Software Engineer Intern - New American Funding   **July 2023 - August 2023**
- Developed a meal-booking web application with conditional booking logic using (ReactJS, C#, .NET, and MySQL)

PROJECTS

AI Recruitement Platform & CAP - Angular, Hapi.js, LLM, Docker, Python, Deep Learning, Hugging Face
- Built frontend features for an AI-based recruitment system in collaboration with the team.
- Contributed to an intelligent career assistance platform using ML/DL for candidate support.

Travelfika - NextJS, SEO, TypeScript
- Collaborated with team members to build a responsive travel booking platform, developing dynamic interfaces, integrating APIs with Axios, and optimizing performance using server-side rendering.

LunchMate - React, C#, .NET, MySql, Azure GitHub
- Developed a website to book meals for the upcoming week and confirm the booking only if there is more than 15 bookings.
- Integrated APIs to fetch menus, manage bookings, and send confirmations..

CERTIFICATIONS

- Oracle Cloud Infrastructure 2023 Certified Foundations Associate
- Salesforce Trailhead: 13 Superbadges, 28 Badges (53,550 points)
- MERN Stack Certified Associate.

PUBLICATIONS

- **Job Seeker**: Co-authored a journal paper on *Job Seeker*, a platform enabling seamless recruiter–applicant interaction through dashboards and job tracking   Link

KEY ACHIEVEMENTS

- **NM-AU-TNCPL Hackathon:** Top 10 out of 49,000 teams and 478 colleges; awarded a cash prize.
- **Hackathon:** Won 1st and 2nd place in inter-level hackathons for innovative software solutions.
